 Pulmonology
 Rheumatology
 Trauma Surgery

Many Minds. One Group.

Brandi J. Baker, MD, PhD, is a neurologist at Memorial Healthcare System with a special interest in treating patients with immune disorders of the nervous system, including multiple sclerosis (MS). She also diagnoses and treats patients with seizures, headaches, transient ischemic attacks, stroke, memory problems, Parkinson's disease and neuropathic pain.

Dr. Baker also performs lumbar punctures to help diagnose neurological conditions.

Dr. Baker enjoys educating and empowering her patients, ensuring they leave their appointments with a better understanding of their neurologic condition. She encourages patients to take an active role in their treatment discussions and plans, and promotes diet and lifestyle modifications that patients can incorporate to improve their overall health and happiness.

In addition to providing patient care, Dr. Baker is involved in clinical research, studying the effectiveness of therapies used to treat MS, as well as neurosarcoidosis.

BRANDI J. BAKER, MD, PhD NEUROLOGIST

- Fellowships:
 - Neuroimmunology - Washington University, St. Louis, Missouri, 2020
 - Physical Medicine and Rehabilitation /Neurobiology - University of Alabama at Birmingham School of Medicine, Birmingham, Alabama, 2011
- Residency:
